At that time, 50% of the shares of E-FORM were issued to Omni-Lite for nominal consideration. In September 2005, additional subscriptions from third parties resulted in a further investment of \$120,000 and a reduction of Omni-Lite's ownership to 38.48%. Because of the relationship between the management of the two corporations, current accounting rules require that E-FORM's financial statements be consolidated with Omni-Lite's statements resulting in the inclusion of E-FORM's assets in the Omni-Lite Balance sheet and the recording of an \$18,000 gain from the dilution occurring on the September investment.
