TSXV: OML
OTCQX: OLNCF

LOS ANGELES, CALIFORNIA, July 8, 2016 - Omni-Lite Industries Canada Inc. (the "Company" or "Omni-Lite") is pleased to note that it has received new contracts since May 27, 2016, in the amount of approximately \$540,000 US. Of these orders, 58% are in the Specialty Automotive division, 40% are in the Aerospace division, and 2% are in the Sports and Recreational division. This brings the total value of new orders announced since the start of the year to over \$5,040,000, US. At the US to CAD currency exchange rate of July 7, 2016, these orders are valued at approximately \$6,552,000 CAD.

The Company is pleased to note that revenues in the second quarter exceeded \$2,110,000 US. This brings revenue in the first six months of the fiscal year to approximately \$3,595,000 US. As forecast earlier in the year, revenues are continuing to build into the latter half of the year, as the military production continues to gain in momentum.

The Company is also pleased to announce that it has received an initial contract for a component developed for the solar industry. This component is utilized in high quantities in the electrical system of popular solar installations. The Company delivered to the customer, the first article for final testing in late June, 2016.

"The Company is fortunate to have a backlog that has grown 255% from January to June 2016. This increased order visibility is also shown in the book to bill ratio increasing to 1.7 from 1.2 this time last year." stated David F. Grant, CEO.

The Company is also pleased to be featured in a [SNN\(Stock News Now\) video](#) where the growth strategy of the company is discussed at the L D Micro conference in Belair, CA, on June 7, 2016. The Company is fortunate to be a growing company in several growing industries. This video interview can also be found on the updated Omni-Lite website at www.omni-lite.com.

Omni-Lite Industries Canada Inc. is a rapidly growing high technology company that develops and manufactures mission critical, precision components utilized by Fortune 500 companies including Boeing, Airbus, Bombardier, Embraer, Ford, Borg Warner, Chrysler, the U.S. Military, and Nike.
