LOS ANGELES, CALIFORNIA, SEPTEMBER 7, 2016 - Omni-Lite Industries Canada Inc. (the "Company" or "Omni-Lite") is pleased to announce new sales orders of \$664,320 US. Of these orders, 58% are in the Aerospace division, 35% are in the Specialty Automotive division, and 7% are in the Sports and Recreational division. "This brings the total value of the new orders announced in 2016 to over \$6.3 million US, or approximately \$8.1 million CDN at the exchange rate of September 6, 2016. Equally important, for the year to date, the Company had a book-to-bill ratio in excess of 1.2 on August 31, 2016," stated Allen W. Maxin, President. "We are also expecting to undertake a new first article review with the US military in October. This is a critical step to obtaining a production order for this product."

Omni-Lite is also pleased to report that it has repurchased 529,900 common shares at a weighted average price of approximately \$1.64 CDN per share, since the current Normal Course Issuer Bid ("NCIB") was approved by the TSX Venture Exchange on May 25, 2016. "In the last three months, the Company has repurchased almost 5% of the issued and outstanding common shares. Upon cancellation of these shares, the Company will have approximately 10,624,720 shares outstanding," stated Timothy P. Leybold, CFO. "The continued execution of the NCIB program should provide significant value to shareholders, while still allowing the Company to make investments in the engineering and manufacturing infrastructure required for the specialized business of delivering mission critical components to our customers."

The Company also notes that on August 29, 2016, Taglich Brothers, Inc. released an updated Research Report on Omni-Lite. This report can be found on the Company's website or at www.taglichbrothers.com.
