Notes to Consolidated Financial Statements	10 – 38

To the Shareholders of Omni-Lite Industries Canada Inc.:

#### Opinion

We have audited the consolidated financial statements of Omni-Lite Industries Canada Inc. and its subsidiaries (the "Company"), which comprise the consolidated statements of financial position as at December 31, 2022 and December 31, 2021, and the consolidated statements of loss and comprehensive loss, changes in shareholders' equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2022 and December 31, 2021, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with International Financial Reporting Standards.

#### **Basis for Opinion**

We conducted our audits in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audits of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Assessment of the Recoverable Amount of Goodwill

#### Key Audit Matter Description

We draw attention to Notes 2 and 7 to the consolidated financial statements. As at December 31, 2022, the Company has goodwill recorded of \$878,375. Goodwill is required to be tested for impairment annually, and an impairment loss is recognized if the carrying amount of the cash generating unit ("CGU" or "CGUs") exceeds its recoverable amount. Management has determined the recoverable amount of the CGUs based on their value-in-use, which incorporates the following significant assumptions:

- Future cash flows based on forecasted earnings before interest, tax, depreciation and amortization
- Revenue growth rate
- Discount rate

We considered the recoverable amount of the Company's Monzite and Design Precision Casting CGUs as a key audit matter due to the significant judgment used by management in determining the recoverable amount of the CGUs. This resulted in an increased extent of audit effort, including the involvement of internal valuation specialists.

#### Audit Response

We responded to this matter by performing procedures in relation to the assessment of the recoverable amount of goodwill. Our audit work in relation to this included, but was not restricted to, the following:

- We performed a retrospective review by comparing management's prior year expected future cash flows to the actual results, to assess the Company's ability to accurately forecast.
- We evaluated the reasonableness of the future cash flow projections used to calculate each CGU's recoverable amount by comparing the estimated cash flows to historical results and by comparing certain assumptions used in the future cash flow projections to market data.
- We verified the mathematical accuracy of management's impairment model and supporting calculations.
- We performed a sensitivity analysis on key inputs used in the future cash flow projections.
- We involved our internal valuation specialists to evaluate the appropriateness of the discount rate used.
- We assessed the appropriateness of the disclosures relating to the goodwill in the notes to the consolidated financial statements.

#### **Other Information**

Management is responsible for the other information. The other information comprises Management's Discussion and Analysis.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated. We obtained Management's Discussion and Analysis prior to the date of this auditor's report. If, based on the work we have performed on this other information, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
  on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
  may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a
  material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures
  in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our
  conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future
  events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Scott Laluk.

The accompanying notes are an integral part of these consolidated financial statements.

## 1. Nature of Operations

Omni-Lite Industries Canada Inc. ("Omni-Lite" or the "Company") was incorporated under the Laws of the Business Corporations Act of Alberta in 1992. The consolidated financial statements of the Company for the year ended December 31, 2022 include the accounts of the Company and its wholly-owned subsidiaries. The consolidated financial statements were authorized for issue by the Board of Directors on April 19, 2023. The Company's head office, research and development, and production operations are located at 17210 Edwards Road, Cerritos, California, U.S.A, 90703 and its registered office is located at 18 Kings Street East, Suite 902, Toronto, ON M5C 2C4. The Company's core mission is the adaptation of material science for mission critical applications. These products include components for the aerospace, military, specialty automotive and sports and recreational industries. Since the most significant portion of the Company's operations is located in the United States ("U.S.") and its functional currency is U.S. dollars, these consolidated financial statements are presented in U.S. dollars. The Company is listed for trading on the TSX Venture Exchange under the symbol OML and the OTCQX under the symbol OLNCF.

## Impact of the COVID-19 Pandemic

The ongoing COVID-19 pandemic ("pandemic") has caused and may continue to cause governments and businesses around the world to take steps to combat the spread and adverse effects of COVID-19 virus and its variants. Such actions include the implementation of travel bans, stay at home orders, social distancing, quarantines, limits on business activity and other disruptive measures. These actions have resulted in and may continue to result in an economic slowdown. Governments have responded with significant monetary interventions designed to support and stabilize the adverse effects of the pandemic on individuals and businesses.

The pandemic has significantly adversely affected the Company's operations during 2022 and 2021. During 2022, the pandemic did effect some of our supply chain, taking long for us to procure materials, resulting in some delays in shipments. The full extent of the effects of the pandemic on the Company's future operations continues to be unknown at this time and is dependent on the duration of the pandemic and future government and customer actions. In response to this uncertainty, the Company has fully availed itself of Paycheck Protection Program, completed a workforce reduction program and implemented other cost saving measures to preserve cash.

## 2. Significant Accounting Policies

These consolidated financial statements have been prepared by management in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and the International Financial Reporting Interpretations Committee ("IFRIC") in effect at January 1, 2022. The principal accounting policies are set out below.

The preparation of consolidated financial statements requires management to make estimates and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. The consolidated financial statements have, in management's opinion, been properly prepared using careful judgment within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

## (a)Consolidation

These consolidated financial statements include the accounts of the Company, and its wholly owned subsidiaries, Omni-Lite Industries California Inc. ("California"), Monzite Corporation ("Monzite"), Impellimax, Inc. ("Impellimax"), Marvel Acquisition Co. Ltd. and Designed Precision Castings, Inc. ("DP Cast"). All significant intercompany balances and transactions have been eliminated on consolidation.

## (b)Basis of measurement

These consolidated financial statements have been prepared on a going concern basis, using the historical cost convention except for share-based compensation and certain financial instruments, which are measured at fair value.

(c) Inventory

Inventory consists of raw materials, work in progress, and finished goods. Inventory is carried at the lower of weighted average costs (including materials, labor and allocated overheads) and net realizable value. Finished goods inventory is recorded at the average cost of production which approximates actual cost and includes raw materials, labor and allocated overheads.

## (d)<u>Revenue</u>

The Company recognizes revenue at a point in time from the sale of products, which include components for the aerospace, military, specialty automotive, and sports and recreational industries, when the performance obligations have been completed, as control of these products transfer to the customer, and collectability is reasonably assured. The consideration for product sales rendered is measured at the fair value of the consideration received and allocated based on their individual selling prices. The individual selling prices are determined based on the agreed upon prices at which the Company sells in separate transactions.

The Company does not expect to have any revenue contracts where the period between the transfer of the promised goods to the customer and payment by the customer exceeds one year. As a result, the Company does not adjust any of the transaction price for the time value of money.

## (e)<u>Cash</u>

Cash is comprised of cash and other short-term, highly liquid investments with original maturities of less than three months from their purchase.

## (f) Property, plant and equipment

Property, plant and equipment are carried at historical cost less accumulated depreciation and any impairment losses. Depreciation is provided using the following methods and annual rates intended to depreciate the cost of these assets over their estimated useful lives.

Building	4% declining balance
Production equipment	7-30 years straight-line
Other equipment	30% declining balance
Non-consumable tooling	2.5 years straight-line

When the cost of a part of an item of property, plant and equipment is significant in relation to the total cost of an item and the items have different useful lives, they are accounted for as separate items (significant components) of property, plant and equipment. The costs of day-today servicing of property, plant and equipment are recognized in overhead or direct operating expenses. Gains or losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized within other income in the consolidated statements of loss and comprehensive loss. Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate. Other equipment consists of production support equipment.

## (g)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. Amortization is provided using the following methods and annual rates:

Customer relationships	5 years straight-line
Trademark	5 years straight-line
Developed Technology	5 years straight-line
Non-compete agreements	3 years straight-line

Intangible assets with indefinite lives are not amortized.

#### (h) Financial instruments

Classification and Measurement of Financial Instruments

The Company measures its financial assets and financial liabilities at fair value on initial recognition, which is typically the transaction price unless a financial instrument contains a significant financing component. Subsequent measurement is dependent on the financial instrument's classification which in the case of financial assets, is determined by the context of the Company's business model and the contractual cash flow characteristics of the financial asset. Financial assets are classified into three categories: (1) measured at amortized cost, (2) fair value through profit and loss ("FVTPL") and (3) fair value through other comprehensive income ("FVOCI"). Financial liabilities are subsequently measured at amortized cost, other than financial liabilities that are measured at FVTPL or designated as FVTPL where any change in fair value resulting from an entity's own credit risk as other comprehensive income ("OCI"). The Company does not employ hedge accounting for its risk management contracts currently in place.

## Amortized Cost

The Company classifies its accounts receivable, other receivables, due from related parties, accounts payable and accrued liabilities, and bank indebtedness as measured at amortized cost. The contractual cash flows received from these financial assets are solely payments of principal and interest and are held within a business model whose objective is to collect the contractual cash flows. These financial assets and liabilities are initially measured at fair value plus or minus transaction costs directly attributable to the financial asset or liability. These financial assets and financial liabilities are subsequently measured at amortized cost using the effective interest method.

## FVTPL

The Company classifies its cash as measured at FVTPL. Financial assets and liabilities classified as FVTPL are subsequently measured at fair value with changes in fair value charged immediately to the consolidated statements of loss and comprehensive loss. Transaction costs relating to financial instruments at FVTPL are expensed as incurred.

## FVOCI

The Company elected to classify its equity investment as measured at FVOCI. Financial assets classified as FVOCI are subsequently measured at fair value with changes in fair value charged to OCI.

## Derecognition of financial instruments

Financial assets are derecognized when the contractual rights to cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows from the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred.

Financial liability is derecognized when the obligation is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same counterparty with substantially different terms, or the terms of an existing liability are substantially modified, it is treated as a derecognition of the original liability and the recognition of a new liability. When the terms of an existing financial liability are altered, but the changes are considered non-substantial, it is accounted for as a modification to the existing financial liability. Where a liability is substantially modified it is considered to be extinguished and a gain or loss is recognized in the consolidated statements of loss and comprehensive loss-based on the difference between the carrying amount of the liability derecognized and the fair value of the revised liability. Where a liability is modified in a non-substantial way, the amortized cost of the liability is remeasured based on the new cash flows and a gain or loss is recorded in the consolidated statements of loss.

## (i) Impairment of financial assets

The Company recognizes loss allowances for expected credit losses ("ECLs") on its financial assets measured at amortized cost. Due to the nature of its financial assets, the Company measures loss allowances at an amount equal to expected lifetime ECLs. Lifetime ECLs are the anticipated ECLs that result from all possible default events over the expected life of a financial asset. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the related financial asset. The Company does not have any financial assets that contain a financing component.

## (j) Impairment of non-financial assets

The Company assesses, at the end of each reporting period, whether there is an indication that an asset may be impaired. If any indication of impairment exists, the Company estimates the recoverable amount of the asset. External triggering events include, for example, changes in customer or industry dynamics, other technologies, and economic declines. Internal triggering events for impairment include lower profitability or planned restructuring. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets, referred to as cash generating units ("CGU").

If the carrying amount of the asset, or its respective CGU, exceeds its estimated recoverable amount, the difference is recognized as an impairment charge. The Company's corporate assets, which do not generate separate cash inflows, are allocated to the CGUs on a reasonable basis for impairment testing purposes.

The Company's impairment tests compare the carrying amount of the asset or CGU to its recoverable amount. The recoverable amount is the higher of fair vale less costs of disposal ("FVLCD") and value in use ("VIU"). FVLCD is the amount obtainable from the sale of an asset or CGU in an arm's length transaction of similar assets or observable market process, less the costs of disposal. The determination of VIU requires the estimation and discounting of cash flows which involves key assumptions that consider all information available on the respective testing date. Management uses its judgment, considering past and actual performance as well as expected developments in the respective markets and in the overall macro-economic environment and economic trends to model and discount future cash flows.

#### (k)Leases

The Company enters into leases for office space in the normal course of business which expire at various times through 2041. Lease contracts are typically made for fixed periods and may contain a renewal option. Where renewal is likely to occur, the Company includes a renewal option in its lease liabilities at the last known lease rate. Leases are negotiated on an individual basis, and each contain different terms and conditions. The Company does not have any contingent rental or sublease payments. The Company has sublease income on a month-to-month basis for one of its leases.

The Company also enters into leases for the purchase of equipment.

The Company assesses whether a contract contains a lease at the inception of a contract. A lease contract conveys the right to control the use of an identified asset for a period in exchange for consideration. Lease liabilities are recognized with corresponding right-of-use assets for all lease agreements, except for short-term leases with terms of 12 months or less and leases of low value assets, which are expensed on a straight-line basis over the lease term. Consideration in a contract is allocated to lease and non-lease components on a relative stand-alone value basis. Lease components and any associated non-lease components are accounted for as a single lease component.

Lease liabilities are initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the Company's incremental borrowing rate, unless the rate implicit in the lease is readily determinable. A single incremental borrowing rate is applied to a portfolio of leases with similar characteristics. Lease payments included in the measurement of the lease liability comprise fixed (and insubstance fixed) lease payments, less any lease incentives, variable lease payments that depend on an index or rate, and payments expected under residual value guarantees and payments relating to purchase options and renewal option periods that are reasonably certain to be exercised (or periods subject to termination options that are not reasonably certain to be exercised).

Lease liabilities are subsequently measured at amortized cost using the effective interest method. Lease liabilities are remeasured, with a corresponding adjustment to the related right-of-use assets, when there is a change in variable lease payments arising from a change in an index or rate, or when the Company changes the assessment of whether to exercise renewal or termination options.

Right-of-use assets are measured at cost, comprised of the initial measurement of the corresponding lease liabilities, lease payments made at or before the commencement date and any initial direct costs. They are subsequently depreciated on a straight-line basis and reduced by impairment losses, if any. Right-of-use assets may also be adjusted to reflect the remeasurement of related lease liabilities. The right-of-use asset is depreciated from the commencement date to the earlier of the end of the useful life of the underlying asset or the end of the lease term.

## (I) Provisions

A provision is recognized in the consolidated financial statements when the Company has a material obligation, whether existing or potential, as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. If the obligation is determined to be material, then the estimated amount of the provision is determined by discounting the expected future cash outflows. At December 31, 2022 and December 31, 2021, there were no provisions recognized in the consolidated financial statements.

## (m)Income taxes

Income tax expense for the year consists of current and deferred tax. Income tax is recognized in the consolidated statements of loss and comprehensive loss, except to the extent that it relates to a business combination or items recognized in OCI or directly in equity.

Taxable income differs from income as reported in the consolidated statements of loss and comprehensive loss. As a result, current tax is the expected tax due on taxable income less adjustments to prior periods using tax rates enacted, or substantively enacted as at the reporting date in jurisdictions where the Company operates.

In general, deferred taxes are recognized based on temporary differences arising between the tax value of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred tax liabilities are not recognized and are not accounted for if they arise from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income. Deferred taxes are calculated on the basis of the tax laws enacted or substantively enacted as at the reporting date and apply to when the related deferred tax asset is realized, or the deferred tax liability is settled.

Current and deferred tax assets and liabilities are offset when there is a legally enforceable right to settle on a net basis and when such assets and liabilities relate to income taxes imposed by the same taxation authority.

## (n) Foreign exchange

These consolidated financial statements have been presented in U.S. dollars, the functional currency of the Company's operations. Monetary assets and liabilities denominated in foreign currencies are translated into U.S. dollars at the foreign exchange rate in effect at the statement of financial position date. Revenue and expense translated in foreign currencies are translated to the functional currency at the average foreign exchange rate for the period with all consequential exchange differences recognized in Cumulative translation adjustment.

Non-monetary assets that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. All resulting exchange differences from translation of the functional currency into a different reporting currency are recognized as a separate component in Cumulative translation adjustment.

#### (o) Business combinations

The Company uses the acquisition method of accounting to account for business combinations. At the acquisition date, the Company recognizes, separately from goodwill, the identifiable assets acquired, the liabilities assumed and any non-controlling interests of the acquiree at fair value.

Any excess of the purchase price over the fair value of the net assets acquired is recognized as goodwill. Transaction costs that the Company incurs in connection with a business combination are expensed as incurred. If the business combination results in a contingent consideration being transferred to the acquirer, it is recognized at fair value at acquisition date.

## (p) Goodwill

Goodwill represents the excess of the purchase price over the fair value of net assets acquired and liabilities assumed in a business combination. Goodwill is not amortized but is tested for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Company's CGUs expected to benefit from the synergies of the business combination.

CGU's to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the CGU may be impaired. If the recoverable amount of the CGU is less than it's carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the CGU and then to the other assets of the CGU pro-rata on the basis of the carrying amount of each asset in the CGU. An impairment loss recognized for goodwill is not reversed in a subsequent period.

## (q)Share-based compensation plan

The Company provides equity-settled share-based payments in the form of a share option and warrant plan to its employees, officers, directors and consultants. The Company accounts for these share options and warrants using the graded vesting method of accounting for share-based compensation expense. Under this method, the associated compensation expense is charged to the consolidated statements of loss and comprehensive loss with a corresponding increase to contributed surplus less an estimated forfeiture rate over each vesting period (tranches) of the options and warrants granted. The forfeiture rate is based on past experience of actual forfeitures.

Share-based compensation transactions with non-employees are measured at the fair value of the goods or services received. However, if the fair value cannot be estimated reliably, the share-based compensation transaction is measured at the fair value of the equity instruments granted at the date the non-employee provides the goods or services.

## (r) Per share amounts

Basic loss per share is calculated using the weighted average number of shares outstanding during the period. The Company follows the treasury stock method for the computation of diluted per share amounts. This method assumes the proceeds from the exercise of dilutive options are used to purchase common shares at the weighted average market price during the period.

(s) Research and product design expenses

Expenses related to research and development activities that do not meet the criteria for deferral are expensed as incurred, net of related tax credits and government grants. Development expenses that meet the criteria for deferral are capitalized, net of related tax credits and government grants, and are amortized against earnings over the estimated benefit period. Research and product design expenses are mainly comprised of salaries and related expenses, material costs as well as fees paid to third party consultants.

(t) Segmented information

The Company and its wholly owned subsidiaries are grouped into two geographical segments in the United States and Canada, and each are supported by a corporate segment. The three geographical segments share common economic characteristics. The financial results are reviewed regularly by the Company's chief operating decision-makers ("CODM").

The CODM make decisions about resource allocation and assess segment performance based on the internally prepared segment information.

#### (u) Government grants

The Company recognizes government grants as other income when it believes it has fulfilled all of the requirements necessary for the grants to be forgiven.

#### (v) Significant accounting estimates and judgments

The preparation of consolidated financial statements in conformity with IFRS requires management to make estimates and judgments that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosure of contingent assets and liabilities at the reporting date. On an ongoing basis, management evaluates its judgments and estimates in relation to revenue, expenses, assets and liabilities. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

The following are the most significant accounting judgments and estimates made by the Company in applying accounting policies:

## Judgments

#### Determining CGU's

In assessing the recoverability of long-lived and intangible assets, judgment is required in the determination of the appropriate grouping of assets that generate cash inflows or CGU's. The determination of CGU's is based on management's assessment of the independence of revenue earned, operating asset utilization, shared infrastructure, and similarity of risk exposures. Omni-Lite also uses significant judgment in evaluating if a triggering event occurs which would warrant an evaluation of impairment of long-lived and intangible assets based on the identified CGU's.

The Company had three CGU's as follows; Omni-lite, Monzite and DP Cast.

#### **Investments**

The Company applies judgment in determining if it has control over the investment where the Company holds less than 50% equity ownership. The judgment is based on management's determination of whether the Company has control over the activities, projects, financial and operating policies of the investment.

## Deferred taxes

Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable earnings together with future tax planning strategies.

#### Government grants

The Company applies judgment in determining whether or not all conditions have been met when recognizing government grants into other income.

#### Estimates

#### Provisions for expected credit losses

The Company calculates expected credit losses considering historical default rates and forward-looking assumptions to calculate, which is reviewed by management on a quarterly basis. Assessments are made by management after taking into consideration the customer's payment history, the current economic environment, and their credit worthiness. The Company's history of bad debt expense has not been significant; however, a customer's ability to fulfill its payment obligations can change suddenly without notice. Specific provisions may be used where there is information that a specific customer's expected credit losses have increased.

#### Inventory

The amounts for finished goods inventory are based on average costs and includes overhead cost allocation estimates.

#### Share-based compensation

The Company uses the Black-Scholes option pricing model to determine the fair value of share-based compensation. Inputs to the model are subject to various estimates regarding volatility, interest rates, dividend yields, forfeiture rates and expected life of the units issued. These inputs are subject to market factors as well as internal estimates. The Company considers historic trends together with any new information to determine the best estimate of fair value at the date of grant.

## Impairment of non-financial assets

The recoverable amount of a CGU is based on estimates and assumptions regarding the expected market outlook and future cash flows. Assumptions, judgments and estimates about future values are complex and often subjective. They can be affected by a variety of factors, including external factors such as industry and economic trends, and internal factors such as changes in the Company's business strategy or internal forecasts.

Although the Company believes the assumptions, judgments and estimates made in the past have been reasonable and appropriate, different assumptions, judgments and estimates could materially affect the Company's reported financial results.

## Useful life of intangible assets

The consolidated financial statements include estimates of the useful economic life of intangible assets. Due to varying assumptions required to be made with regards to future recoverability of these assets, the amortization recorded by management is based on their best estimate in this regard and may be significantly different from those determined based on future operational results.

## Useful life of property and equipment

The consolidated financial statements include estimates of the useful economic life of property, plant and equipment. Due to varying assumptions required to be made with regards to future recoverability of these assets, the depreciation recorded by management is based on their best estimate in this regard and may be significantly different from those determined based on future operational results.

## Leases

The application of IFRS 16 requires the Company to make judgments and estimates that affect the measurement of right-of-use assets and lease liabilities. In determining the lease term, all facts and circumstances that create an economic incentive to exercise renewal options (or not exercise termination options) are considered. Assessing whether a contract includes a lease also requires judgment. Estimates are required to determine the appropriate discount rate used to measure lease liabilities.

## Business combinations – purchase price allocation

The consideration transferred and acquired assets and assumed liabilities are recognized at fair value on the date the Company effectively obtains control. The measurement of each business combination is based on the information available on the acquisition date. The estimate of fair value of the consideration transferred and acquired intangible assets (including goodwill), property and equipment, other assets and the liabilities assumed are based on estimates and assumptions. The measurement is largely based on projected cash flows, discount rates and market conditions at the date of acquisition.

## 3. Business Combination

On December 20, 2021, the Company acquired 100% of the issued and outstanding shares of Designed Precision Castings, Inc. ("DP Cast") in exchange for 3,078,710 shares valued at \$2,061,663. In addition, the Company paid \$2,952,498 of bank indebtedness, \$332,865 in cash and \$174,468 related to a working capital adjustment. The working capital adjustment was recorded in accounts payable at December 31, 2021 and was settled subsequent to year end. DP Cast designs and manufactures investment castings for aerospace, defense, oil and gas and other commercial applications.

The primary reason for the acquisition of DP Cast was due to its growth potential.

## 3. Business Combination (Continued)

The Company has made a determination of the fair value of the tangible and intangible assets acquired and liabilities assumed in the acquisition.

The total purchase price and fair value of assets and liabilities acquired is as follows:

Consideration paid:	
Cash paid for bank indebtedness	\$ 2,952,498
Cash Paid	332,865
Working capital adjustment	174,468
Shares issued	2,061,663
Total consideration paid	\$ 5,521,494
Assets (liabilities) assumed	
Cash	\$ 1,378
Accounts receivable	1,175,458
Other receivables	305,514
Inventory	1,246,510
Prepaid expenses and other assets	43,505
Property, plant and equipment	2,405,418
Right of use assets	2,430,986
Customer relationships	264,674
Goodwill	496,808
Account payable and accrued liabilities	(984,929)
Lease liabilities	(1,863,828)
Fair value of net assets	\$ 5,521,494

The goodwill was attributable mainly to the expected synergies and future income and growth expected to be achieved from integrating DP Cast into the Company's existing business. The goodwill recognized on the acquisition is not deductible for tax purposes.

The purchase price allocation included an inventory fair value adjustment of \$369,729. At the acquisition date, the fair value of the acquired receivables approximated the carrying value and there was no provision for expected credit losses.

Revenue and net loss of DP Cast included in the consolidated statements of loss and comprehensive loss from the acquisition date is \$68,074 and \$77,709, respectively. Had the acquisition occurred on January 1, 2021, the revenue and net loss would have been approximately \$4,047,000 and \$1,813,000, respectively.

The fair value of the customer relationships was determined using a discounted cash flow analysis. The key assumptions used in the cash flow projection include: (1) a discount rate of 39%; (2) average revenue growth rate of 18%; (3) customer growth rate of 15%; and terminal revenue growth rate of 3% per year.

Transaction costs included in the consolidated statements of loss and comprehensive income loss were approximately \$404,275. Cypress Associates, LLC ("Cypress") served as investment advisor for the purchase of DP Cast. A board member of the Company is a principle in Cypress. Cypress received \$125,000 and 200,000 stock warrants valued at \$77,206 using the Black-Scholes method. The warrants have an exercise price of CAD\$0.95, are exercisable immediately and have a five-year life (note 13).

## 4. Inventory

The major components of inventory are classified as follows:

The cost of inventories recognized as expense and included in cost of goods sold for the year ended December 31, 2022, was \$11,116,534 (2021 - \$5,780,676). During 2022, the Company recorded a reserve for obsolete inventory of \$635,886 (2021 - \$572,693) and wrote-off \$nil (2021 - \$nil).

	Deceml	ber 31, 2022	Decem	ber 31, 2021
Raw Materials		781,992		569,651
Tooling		531,217		497,328
Work in Progress		856,817		1,161,579
Finished Goods		1,251,807		1,782,675
Total	\$	3,421,833	\$	4,011,233

## 5. Investment

At December 31, 2022, the long-term investment consists of an equity investment of 6,004,970 common shares of California Nanotechnologies Corp. ("California Nano"), a public company related through a common director. The Company's investment is recorded at the fair value as supported by the market price listed on the TSX Venture Exchange.

	Carryir	ng Amount
Investment at December 31, 2020	\$	471,720
Loss from market price valuation		(45,432)
Investment at December 31, 2021	\$	426,288
Gain from market price valuation		61,416
Investment at December, 2022	\$	487,704

Of the \$1,140,063 of depreciation expense in 2022 (2021 - \$765,645), nil was capitalized into inventory and \$5,560 (2021 - \$9,690) was expensed to selling, general and administration.

As a result of its declining revenue, the Company performed an impairment test on the Monzite and DP Cast CGU at December 31, 2022 based on a FVLCD analysis. It was determined that no impairment exists as the recoverable amount exceeded the carrying amount of the CGU.

Goodwill of \$407,170 has been allocated to the Monzite CGU and goodwill of \$471,205 to DP Cast CGU. The Company performed its impairment test at December 31, 2022, and the recoverable amount of the Monzite CGU and DP Cast CGU was determined based on a VIU calculation using the following key assumptions:

- 5-year (2021 3 year) cash flow projections expected to be generated based on historical performance, financial forecasts, and growth expectations. Cash flows beyond 3 years used a terminal growth rate of 2%.
- Forecasted revenue at an average growth rate of 13%-20% (2021 13%).
- Average forecasted EBITDA margin of 25%-42% (2021 19%); and,
- Cash flows were discounted at an after-tax discount rate of 20% (2021 20%) based on the Company's weight average cost of capital and risks specific to the particular CGU.

As a result of the impairment test performed, the recoverable amount exceeds the carrying amount and therefore, did not result in an impairment.

## 7. Intangible Assets (Continued)

The most sensitive inputs to the VIU model are the forecasted EBITDA and discount rate. All else being equal:

- A 1% increase in the discount rate would result in an impairment of \$50,000; and,
- A 1% decrease in the average forecasted EBITDA would result in an impairment of \$24,000.

Goodwill of \$496,808 has been allocated to the DP Cast CGU. The Company performed its impairment test at December 31, 2022 and the recoverable amount of the DP Cast CGU was determined based on a FVLCD calculation using the following key assumptions:

- 5-year cash flow projections expected to be generated based on historical performance, financial forecasts, and growth expectations. Cash flows beyond 5 years used a terminal growth rate of 3%;
- Forecasted revenue at an average growth rate of 20%-23%;
- Average forecasted EBITDA margin of 18%; and,
- Cash flows were discounted at an after-tax discount rate of 20% based on the Company's weight average cost of capital and risks specific to the particular CGU.

As a result of the impairment test performed, the recoverable amount exceeds the carrying amount and therefore, did not result in an impairment.

The most sensitive inputs to the FVLCD model are the forecasted EBITDA and discount rate. All else being equal:

- A 1% increase in the discount rate would result in an impairment of \$157,000; and,
- A 1% decrease in the average forecasted EBITDA would result in an impairment of \$153,000.

# 8. Related Party Transactions and Balances

During the years ended December 31, 2022 and 2021, the Company had the following related party transactions and balances not disclosed elsewhere in these consolidated financial statements:

California Nanotechnologies:	Dece	ember 31, 2022		
i. A loan receivable including accrued interest in the amount of \$1,252,469 which is due on demand. Of this amount, \$1,261,936 accrues interest at 7.5% per annum. The loan was secured by all the assets of California Nanotechnologies Inc., a subsidiary of California Nano. This loan receivable is fully reserved.	\$	-	\$	
ii. The Company has provided a guarantee on the bank debt held by California Nanotechnologies Corp. The bank debt consisting of a term loan was \$nil as of December 31, 2022 (\$143,000 at December 31, 2021).				
iii. On March 31, 2020, the bank called California Nano's line of credit of \$250,000, which was guaranteed by the Company. Omni-Lite repaid this amount on their behalf and has a loan receivable with interest at the prime rate plus 1% from California Nanotechnologies Corp. This amount has been fully reserved.				
iv. On July 31, 2021, the Company entered into an agreement to provide space to California Nanotechnologies at the rate of \$3,500 per month. The agreement is cancelable by either party with 30 days' notice.				
Has an unsecured interest free loan receivable from an employee forgiven after five years of service time, related to the acquisition of property with a maturity date in 2022.		20,000		20,000
Provided two grants (December 31, 2020– four) related to the purchases of hybrid/electric cars under the Company's <i>Greenhouse Gas Reduction Incentives for Employees</i> program in the amount of \$5,000 each. One grant outstanding matures in 2021, one grant matures in 2022 and two grants mature in 2023.		10,000		10,000
Reserve for earned grants		(28,000)		(16,000)
Total due from related parties	\$	2,000	\$	14,000
Current portion	Ŧ	_,	Ŧ	-
Long-term portion	\$	2,000	\$	14,000

## **9. Income Taxes** (Continued)

The following provides the details of unrecognized temporary differences for which no deferred tax asset has been recognized:

For the years ended December 31	2022	2021
Unused tax losses carryforward	\$6,776,435	\$6,264,021
Property, plant and equipment	733	905
Other	1,079,411	828,051

The Company has non-capital losses of \$8,885,197 in Canada which begin to expire in 2031, US federal net operating losses of \$1,387,217 with no expiry date and US California net operating losses of \$4,088,268 with no expiry date.

## 10. Compensation of Key Management Personnel

Remuneration of key management personnel during the year was as follows:

	2022	2021
Wages and short-term benefits	\$559,050	\$539,050
Share-based compensation	50,000	71,058
	\$ 609,050	\$ 610,108

Key management personnel of the Company include the Chief Executive Officer, Chief Financial Officer, and the other members of the Board of Directors. For the year ended December 31, 2022, 50,000 warrants were granted to key management personnel (2021 – 100,000 options or warrants).

## 11. Bank Indebtedness

The Company has a three-year, \$3.0 million revolving credit line with City National Bank, an RBC Company, which expired on December 31, 2022 (the "Credit Agreement"). Interest under the revolving line of credit accrues at the prime rate. The Credit Agreement is secured by the Company's accounts receivable, inventory, property, plant and equipment, and general intangibles. The agreement includes certain conditions and financial covenant ratios including, loan to value, net worth, and debt service. In December 2021, the Company sold land and building which served as collateral for the line of credit. The Company paid off the full line of credit balance as part of the sale of the land and building. At December 31, 2022, the loan balance was nil. (December 31, 2021 - nil). The Company will not be able to draw funds on the line of credit until a reassessment is undertaken by the bank. No such re-assessment has been initiated at this time. Interest expense of \$nil (2021 - \$51,619) related to the Company's line of credit line has been recorded in the consolidated statements of loss and comprehensive loss for the year ended December 31, 2022. In addition, the Company recorded \$576,642 (2021 - \$67,440) of lease interest expense.

During 2021, the Company applied for and received \$399,587 of funding under the Paycheck Protection 2 Program. The loan was fully forgiven and have been included as Loan forgiveness in the consolidated statements of loss and comprehensive loss.

## 12. Lease Liability

	[	December 31, 2022	December 31, 2021
Opening Balance January 1	\$	6,537,256	\$ 90,535
Modifications		-	595,759
Additions		97,229	4,054,465
Acquired through DP Cast acquisition (note 3)		-	1,863,828
Payments		(823,015)	(159,430)
Interest		576,642	67,440
Currency translation		(131,049)	24,659
Lease liability end of year	\$	6,257,063	\$ 6,537,256
Less current portion		(338,233)	(239,445)
Long-term portion	\$	5,918,830	\$ 6,297,811

During 2021, the leases for a warehouse in California and the manufacturing office in New Hampshire were amended and extended for an additional five-year period. The lease amendments were considered lease modifications, with the remeasured lease liability and associated right of use asset balances each increasing by \$595,759.

In December 2021, the Company sold its building located in Cerritos California in a sale leaseback transaction. The lease is for a period of 10 years with a 10-year renewal option. The Company recognized a lease liability of \$4,054,405 and a gain on sale of \$1,767,177. The Company prepaid \$292,631 of rent payments which have been excluded in the measurement of the lease liability. The proceeds were used to repay the Company's bank indebtedness and for the acquisition of DP Cast.

The Company has entered leases for its manufacturing and office space as follows:

Location	Туре	Liability	Expires	Entered/ Renewed
Cerritos, California	Manufacturing and office	\$ 4,062,377	December 2031 with a 10-year extension option which management expects to exercise	Entered December 2021
Cerritos, California	Warehouse	270,065	June 2026	Renewed June 2021
Brampton, Ontario	Manufacturing and office	1,652,635	December 2026 with a 5- year extension option which management expects to exercise	Entered December 2021
Nashua, New Hampshire	Manufacturing and office	201,697	March 2026	Renewed March 2021
Brampton, Ontario	Equipment purchase	70,289	October 2023	Entered December 2021
		\$ 6,257,063		

.

• •

## 12. Lease Liability (Continued)

The incremental borrowing rate used to calculate the lease liabilities was 9%. All of the above leases were entered into or renewed in 2021. Additionally, the Company is responsible for all building operating costs including real estate taxes and insurance. The total of these costs included in the financial statements are approximately \$219,235 (2021 - \$22,000). These costs are recorded in selling, general and administrative expenses.

Future minimum lease payments are as follows:

2023	890,257
2024	890,046
2025	902,591
2026	785,787
2027 - 2031	3,493,750
Total	\$6,962,431

## 13. Share Capital

a) Authorized:

Unlimited number of common shares with no par value.

b) Issued:

	Number of	
	Shares	Amount
Total issued and outstanding December 31, 2020	11,333,854	\$ 8,204,897
Issued for acquisition (note 3)	3,078,710	2,061,663
Issued and outstanding December 31, 2021	14,412,564	\$10,266,560
Issued for private placement <sup>(i)</sup>	1,000,000	985,883
Issued and outstanding December 31, 2022	15,412,564	\$11,252,443

<sup>(i)</sup> In February 2022, the Company issued 1,000,000 shares in a private placement at a value of CAD\$ 1.25 per share.

c) Share Options:

The Company established a share option plan for employees, directors, and consultants on September 15, 1997. Under this plan, the Company is authorized to issue options up to 10% of the outstanding number of issued and outstanding shares. From grant date, options vest at one-third of the total grant annually with an expiration term of 5 years.

# 13. Share Capital (Continued)

The Company has granted share options to directors, consultants, and employees of the Company as follows:

	Number	Option Price per Share Range	Weighted Average Exercise Price
Option outstanding at			
December 31, 2020	802,667	CAD \$0.90 to \$1.85	CAD \$1.10

		Weighted Average Exercise Price of	
Options Vested	<b>Option Price</b>	Options Currently Exercisable	Weighted Average Remaining Contractual Life
575,000	CAD \$0.90	CAD \$0.90	1.90

The options that are outstanding at December 31, 2021, are summarized as follows:

Options Outstanding	Option Price	Weighted Average Exercise Price of Options Outstanding	Weighted Average Remaining Contractual Life
90,000	CAD \$0.76	CAD \$0.76	4.69 years
875,000	CAD \$0.90-\$0.92	CAD \$0.91	3.61 years
81,000	CAD 1.85	CAD \$1.85	0.45 years
1,046,000	CAD \$0.76-1.85	CAD \$0.97	3.46 years

## 13. Share Capital (Continued)

Options Vested	Option Price	Weighted Average Exercise Price of Options Currently Exercisable	Weighted Average Remaining Contractual Life
383,328	CAD \$0.90	CAD \$0.90	2.90
81,000	CAD 1.85	CAD \$1.85	0.45
464,328	CAD \$0.90-\$1.85	CAD \$1.07	2.48

In estimating expected stock price volatility at the time of a particular share option grant, the Company relies on observations of historical volatility trends. Share-based compensation expense in relation to stock options was \$87,596 for the year ended December 31, 2022 (2021- \$40,955).

## d) Warrants:

The Company initiated a long-term stock warrant plan in the third quarter of 2018 for key management and employees. The stock warrant plan is monitored by the Board of Directors who determine the strike price and vesting terms of warrants issued.

			Weighted
		Warrant Price Per	Average
	Number	Share Range	Exercise Price
		CAD \$1.27 to	
Warrants outstanding at December 31, 2020	1,200,000	\$2.26	CAD \$1.67
Warrants granted 2021	200,000	CAD \$0.95	CAD \$0.95
Total warrants outstanding December 31, 2021,		CAD \$0.95 to	
and December 31, 2022	1,400,000	\$2.26	CAD \$1.59
		CAD \$0.95 to	
Warrants exercisable at December 31, 2022	510,000	\$1.55	CAD\$1.23

## 13. Share Capital (Continued)

The warrants that are outstanding as of December 31, 2022 are summarized as follows:

Warrants Outstanding	Warrant Exercise Price	Weighted Average Remaining Life
200,000	CAD \$0.95	3.97 years
200,000	CAD \$1.27	3.73 years
125,000	CAD \$1.27	3.73 years
175,000	CAD \$1.41	3.73 years
200,000	CAD \$1.55	3.73 years
250,000	CAD \$1.98	3.73 years
250,000	CAD \$2.26	3.73 years
1,400,000	CAD \$1.59	3.76 years

On December 20, 2021, the Company granted 200,000 stock warrants to Cypress for advisory services in connection with the acquisition of DP Cast. The warrants vested immediately, had a fair value of \$77,206 and were fully expensed in 2021 and expire on December 20, 2026. The fair value of the warrants granted was estimated using the Black-Scholes option pricing model with the following assumptions:

200,000
CAD \$0.95
1.17%
5
64.00%
0.00%
0.00%

700,000 of the warrants outstanding have exercise prices ranging from CAD \$1.27 – CAD \$2.26 and vest upon meeting escalating cumulative three-year EBITDA targets on dates ranging from December 31, 2021, to December 31, 2024. The Company has determined that the EBITDA targets are not expected to be met and, therefore, no expense has been recorded.

Total share-based compensation expense recognized in 2022 in relation to stock warrants was \$6,195 (2021 - \$81,008)

## 14. Contributed Surplus

The following is a continuity schedule of contributed surplus:

	December 31,	December 31,
	2022	2021
Balance, beginning of year	\$ 2,083,436	\$ 1,961,473
Share-based compensation (Note 13(c), (d))	102,142	121,963
Balance, end of year	\$ 2,185,578	\$ 2,083,436

#### 15. Loss per Common Share

The basic loss per common share is calculated using net loss divided by the weighted-average number of common shares outstanding. The diluted loss per common share is calculated using net loss divided by the weighted-average number of diluted common shares outstanding, as adjusted with the treasury stock method. 1,015,000 options (2021 - 1,046,000) and 1,400,000 warrants (2021 - 1,400,000) were excluded in calculating the weighted-average number of diluted common shares outstanding for the years ended December 31, 2022 and 2021 because the Company was in a net loss position for both years.

## 16. Segment Information

The Company has its operations and subsidiaries in the United States and Canada.

	United States	nited States		Total	
For the year ended December 31, 20	22				
Revenue	\$ 7,130,994	\$	4,005,730	\$ \$11,136,724

## **17. Financial Instruments**

The financial instruments of the Company consist of cash, accounts receivable, due from related parties, investment, accounts payable and accrued liabilities, and bank indebtedness.

		December	31,	2022	December 31, 2021 Carrying		
	Car	rying Value	I	Fair Value	Value	Fair Value	
<b>At FVTPL</b> Cash	\$	1,328,430	\$	1,328,430	\$ 2,418,301	\$ 2,418,301	
At FVOCI Investment	\$	487,704	\$	487,704	\$ 426,288	\$ 426,288	
At Amortized cost Accounts receivable Due from related parties Accounts payable and accrued liabilities	\$	2,268,442 2,000 1,329,265	\$	2,268,442 2,000 1,329,265	\$ 2,352,189 14,000 1,889,564	\$ 2,352,189 14,000 1,889,564	

## **17. Financial Instruments** (Continued)

The table below sets out fair value measurements using the fair value hierarchy.

	 Total	Level 1	Level	2	Leve	el 3
Assets						
Cash	\$ 1,328,430	\$ 1,328,430	\$	-	\$	-
Investment	 487,704	487,704		-		-

There have been no transfers during the period between Levels 1 and 2.

The carrying values of accounts receivable, other receivables and accounts payable and accrued liabilities approximate their fair value due to their short-term nature.

The carrying value of the Company's due from related parties approximate their fair values due to the amounts being due on demand.

The Company holds various forms of financial instruments. The nature of these instruments and the Company's operations exposes the Company to various risks. The Company manages its exposure to these risks by operating in a manner that minimizes its exposure to the extent practical. The Company does not use off statement of financial position contracts to manage these risks.

## Interest Rate Risk

The Company's line of credit facility discussed in Note 11 may fluctuate in value as a result of change in market price. The floating rate debt is subject to interest rate cash flow risk, as the required cash flows to service the debt will fluctuate as a result of changes in market rates. As at December 31, 2022, the Company has no interest rate exposure as it has no debt. The annual increase or decrease in income before taxes for each 1% change in interest rates on floating rate debt amounts to approximately \$nil (December 31, 2021 - nil).

## Foreign Currency Risk

The Company has foreign currency exposure through its DP Cast subsidiary which has a functional currency of Canadian dollars. The Company manages its foreign currency risk through natural hedges of its current asset and current liability positions where possible.

## Other Price Risk

The Company has financial instruments that may fluctuate in value as a result of changes in market price. The Company has an investment in shares of California Nanotechnologies, Inc. This investment is recorded on the consolidated statements of financial position at fair value as of the statement of financial position date with changes from the prior period's fair value reported in OCI. As at December 31, 2022, a 1% change in the price of the investment would have an impact of \$4,806 (December 31, 2021 - \$4,263).

## 17. Financial Instruments (Continued)

#### Liquidity Risk

At December 31, 2022, the Company had no borrowings and \$1,328,430 of cash in the bank. In February 2022, the Company issued an additional 1,000,000 shares of common stock at CAD\$1.25 per share which generated additional cash of approximately \$985,000. If the Company should need additional liquidity, it would pursue asset-based lending secured by its assets.

The following table provides an analysis of the financial liabilities based on the remaining terms of the liabilities as at:

	≤ 1 year	> 1 yea ≤ 3 yea		> 3 year: ≤ 4 year:		> 5 y	ears	Total
<b>December 31, 2022</b> Accounts payable and accrued liabilities	\$ 1,329,265	\$	-	\$	-	\$	-	\$ 1,329,265
<b>December 31, 2021</b> Accounts payable and accrued liabilities	\$ 1,889,564	\$	-	\$	-	\$	-	\$ 1,889,564

#### Credit Risk

The Company manages credit risk over cash by maintaining its bank accounts with large financial institutions. The Company manages credit risk over accounts receivable by dealing with financially sound customers, based on an evaluation of the customer's financial condition. For the year ended December 31, 2022, the Company had one customer who each accounted for in excess of 10% of revenue for approximately \$1,840,900 or 17% of sales (December 31, 2021 – two customers totaling \$2.415 million or 42% of sales). The maximum exposure to credit risk is the carrying value of cash, accounts receivable and due from related parties. The table below provides an analysis of the age of accounts receivable from invoice date, which are not considered impaired.

	Total	≤ 30 days	> 30 days ≤ 60 days	> 60 days ≤ 90 days	> 90
December 31, 2022	\$ 2,268,442	\$ 1,297,490	\$ 605,554	\$ 234,191	\$ 131,207
December 31, 2021	\$ 2,352,189	\$ 1,541,341	\$ 602,853	\$ 119,117	\$ 88,878

## 18.Commitments

The Company has purchase orders with various customers, in the normal course of operations, to supply parts during 2023.

Omni-Lite has leases for commercial space in Cerritos, California, Brampton, Ontario and Nashua, New Hampshire for manufacturing, warehouse and office space. A schedule of the future minimum rental payments under leases primarily for commercial space is as follows:

Year	Amount
2024	\$ 890,046
2025	902,591
2026	785,787
2027 - 2031	2,788,382
Total	\$ 5,366,806

Included in the above are minimum rent payments associated with equipment purchase leases of \$41,140. These amounts will be paid off by October 2023.

## 19.Selling, General, and Administrative Expense

Selling, general and administrative expense consist of the following:

	2022	2021
Payroll	\$ 1,169,517	\$ 843,827
Transaction related (note 3)	29,311	404,275
Outside services	386,804	359,725
All other	381,108	106,299
	\$ 1,966,740	\$ 1,714,126

## 20. Capital Disclosures

The objective for managing the Company's capital structure is to ensure that the Company has the financial capacity, liquidity and flexibility to fund expansion projects and product development efforts. The capital structure of the Company consists of cash and equity comprised of issued capital, contributed surplus and retained earnings. The Company generally relies on operating cash flows fund the expansion and product development. The Company's financing needs depend on the timing of expected net cash flows from new products and sales of current products. This requires the Company to maintain financial flexibility and liquidity.

The Company's capital management policies are aimed at:

- Maintaining an appropriate balance between short-term borrowings, long-term debt and shareholders' equity;
- Maintaining sufficient undrawn committed credit capacity to provide liquidity;
- Ensuring ample covenant room to draw credit lines as required; and,
- Ensuring the Company maintains a credit rating that is appropriate for their circumstances.

The Company monitors the leverage in its capital structure by reviewing the ratio of net debt to cash flow from operating activities and interest coverage ratios.
